

GAME OVERVIEW

MUERTOS MULTIPLIER
MEGAWAYS™

Game Description (for Players)

Celebrate Day of the Dead with Muertos Multiplier Megaways™.

This six-reel Megaways release has symbols depicting Tacos, Cactuses and Skulls which must form matching combinations across the games 117,649 winning ways to award a win and trigger a tumble feature of new symbols. These are joined by a wild multiplier which can substitute all symbols except the bonus symbols making it easier to create wins.

Three bonus symbols award a free spins round with players being able to gamble the number of spins won prior to entering the bonus. Here each tumble triggered increases the overall game's multiplier by 1x and each wild landed multiplies the current in-game multiplier, allowing this to increase quickly. These wild multipliers are key to awarding Muertos Multiplier Megaways™ a huge max win of 10,000x!

Game Information

Top Tracker

There is a horizontal reel on top of the screen, that spins left to right and it's called Top Tracker. The top tracker spins left to right and lands just before the main (vertical) reels. Together with vertical reels (screen of size 7-6-6-6-6-7 in case of max reels sizes), it forms the final screen of size 7-7-7-7-7-7 (6x7). Wins are calculated on the so called "final" screen which is a merger of the regular one and the top tracker. If there is a pay-line that includes a position on the top tracker, then right-to-left tumbling has to be applied to this position, meaning that a symbol on the position is burnt and its neighbors to the right have to be shifted to the left. Wild symbols are seen ONLY on the top tracker.

Spin details

Each click of SPIN button will cause each reel to spin to a random position. Wins are paid for matching 3 or more (for H1 symbol: 2 symbols also pay) of the same symbols, left to right (top tracker might take part in the win lines). Wins create a cascade, causing more symbols to drop into view, but if for vertical reels it happens top-to-bottom, for top tracker it happens left-to-right.

Game Information

Wild Symbols

The Wild Symbol (written wild) substitutes for every other symbol, except scatter and is ONLY found in the top tracker. Wild symbols can appear in both Free Spins and the Base Game. If a wild symbol appears on the top tracker reel, then it has to have a multiplier value (x2 or x3).

The multiplier value is active despite of the wild is part of a win line or not. But if this wild is a part of a win line, then we have to remember the multiplier value, do the tumbling and if another wild appears on the reel, the final multiplier will be the result of the multiplication of the remembered value and new wild's multiplier value. All wins are calculated normally, with the multiplier applied per win.

Wilds Flow

1. Wild lands in view and reveals a x3.
2. All wins are x3 at this point.
3. If this creates a win with the wild, the wild is then removed as well as other symbols.
4. A new wild comes into place on the top tracker, this also reveals a x3.
5. Now all wins are x9.
6. Any wins now made are x9.
7. If another wild comes into view and reveals x2, all wins are x18.

Game Information

Free Game Activation

The player enters the bonus by landing 3 or more Scatter symbols in the base game reels. There is no payout awarded directly for getting this, just entry into the Free Spins Bonus.

Triggering with 3 Scatters symbols awards a Bonus Wheel which can award 5, 6, 7, 8, 10, 12, 14 spins

Triggering with 4 Scatters symbols awards a Bonus Wheel which can award 6, 7, 8, 10, 12, 14 spins

Triggering with 5 Scatters symbols awards a Bonus Wheel which can award 7, 8, 10, 12, 14 spins

Triggering with 6 Scatters symbols awards a Bonus Wheel which can award 8, 10, 12, 14 spins

The game will include a near miss animation for Scatter symbols during the tumbling. Once Bonus Wheel has selected the number of FS to play, the player is offered to play the Gambling, where he can either win one more FS or lose them all. If the player agrees and wins, he gets +1 FS and is offered to play Gambling again. If the player rejects at any point, he plays the latest collected number of FS.

If the player agrees and loses, then he loses all of his FS and completes the round.

Game Information

Free spins

The player upon triggering the feature will be taken to a new reel location.

Here they will play out the free spins with any Wild which lands in view on the top tracker adding to the OVERALL free spins' multiplier.

Wild symbols which land in view will reveal either a x2 or x3 and add to the overall win multiplier.

On each cascade multiplier increases +1 and increased multiplier is applied to next winnings.

The win multiplier is carried over to the next spin each free spin.

Example:

Spin 1 – wild x2 and wild x3 are revealed. All wins x6.

Spin 2 – no wild

Spin 3 – wild x2 revealed. All wins x12

Spin 4 – no wild

Spin 5 – wild x3 revealed. All wins x36

Spin 6 – wild x2 revealed. All wins x72

Land 2 or more scatter symbols in view to win additional Free Spins:

2 scatters: +1 Spin

3 scatters: +2 Spins

4 scatters: +3 Spins

5 scatters: +4 Spins

6 scatters: +6 Spins

Game Information

TUMBLE FEATURE

The TUMBLE FEATURE means that after every spin, winning combinations are paid and all winning symbols disappear. The remaining symbols fall to the bottom of the screen and the empty positions are replaced with new symbols coming from above. New symbols are of the same size as the initial spin result, before tumbles.

Tumbling will continue until no more winning combinations appear as a result of a tumble.
All wins are added to the player's balance after all the tumbles resulted from a base spin have been played.

WILD MULTIPLIER

Whenever a WILD symbol hits it has a random multiplier of x2 or x3. The multiplier applies to the win of the current tumble and all subsequent tumbles and it gets collected in a meter. Whenever more WILDS hit during the tumble sequence the collected value is multiplied by the value of the new ones.
The total multiplier value is reset to x1 at the end of all tumbles in a spin.
